## NHI students prepare 45kg cake for National Day

Celebrations were in place at NHI as the students of the Gulf Chef School presented their 45kg cake to the other students in celebration of Oman's 45<sup>th</sup> National Day. The cake mix had over 200 eggs and 36kg of dry ingredients.

The students from the culinary school decided that they wanted to mark this very special day in a way that they themselves could be part of.

They planned the ingredients and the production with their teachers and set to work as a team to produce the cake.

Students at the Gulf Chef school at NHI have an opportunity to have hands on training and engage in realistic cooking events both in and outside the institute. NHI has its own restaurant called Classroom which is open to the public and where the students can practice on real customers.
